

LATEST 360°

CRYOLIPOLYSIS MACHINE

SEMICONDUCTOR COOLING

- ◆ More Comfortable
- ◆ Twice Treatment Areas
- ◆ Say Goodbye To Cellulite

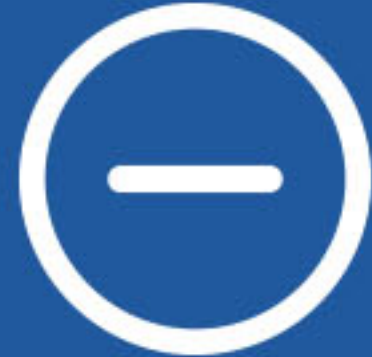

MACHINE FUNCTIONS

Suitable for all skin types

WEIGHT LOSS

Body slimming, Reshape body line

CELLULITE REDUCTION

Cellulite removal Localized fat removal

STUBBORN FAT REMOVAL

Stubborn fat removal, natural-looking results

IMPROVE BLOOD CIRCULATION

The improvement is remarkable.

ADVANTAGES

COMFORTABLE

Medical level material, more smooth and soft.

HIGH EFFICIENCY

Multiple areas can be treated at one time.

SAFE

Vacuum increase gently, no harm to skin.

MORE INTELLIGENT

3 minutes heating massage, enhance blood circulation

EASY

Easily replace probe, Easy operation.

BETTER RESULTS

Full-scale freezing, larger treatment area.

IMMEDIATE EFFECT

Reduce size by 3cm in one treatment.

4 HANDLES 6 REPLACEMENT HEADS

6 HEADS

4 handles can work at the same time and independently, 6 different size replacement heads can be used for different treatment areas, which is more convenient and saves time.

GLAMOURESSENCE™

"EMPOWERING BEAUTY. ENHANCING GLAMOUR"

TREATMENT HEAD 1

**TREATMENT AREA:
110×50.5MM**

* double chin

* armpit

* knee

Suitable for small fat pockets and curved contours

TREATMENT HEAD 2

**TREATMENT AREA:
110×80MM**

* double chin

* Back

* Inner knee

* Arm

Suitable for small fat pockets and flat head contours

TREATMENT HEAD 3

**TREATMENT AREA:
260×140MM**

* abdomen

* Belly

* Lower back fat

* Hip line

Suitable for wide and curved contours

GLAMOURESSENCE™
"EMPOWERING BEAUTY. ENHANCING GLAMOUR"

TREATMENT HEAD 4

**TREATMENT AREA:
330×180MM**

* Lower abdomen

* Upper and lower abdomen

* Back fat

Suitable for large fat pockets and large fat deposits

TREATMENT HEAD 5

**TREATMENT AREA:
200×140MM**

* abdomen

* Belly

* Lower back fat

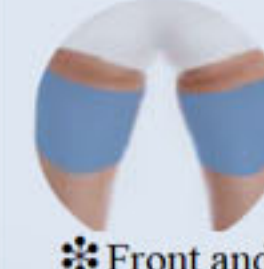

* Hip line

Suitable for large fat bags and flat contours

TREATMENT HEAD 6

**TREATMENT AREA:
250×190MM**

* Front and back of thighs

* Outer thigh

* Waist fat

* Lower back

Suitable for the thigh area; flat and wide fat areas

360° SURROUND COOLING

Temp
-15-50°C

10-50Kpa
Vacuum
Suction

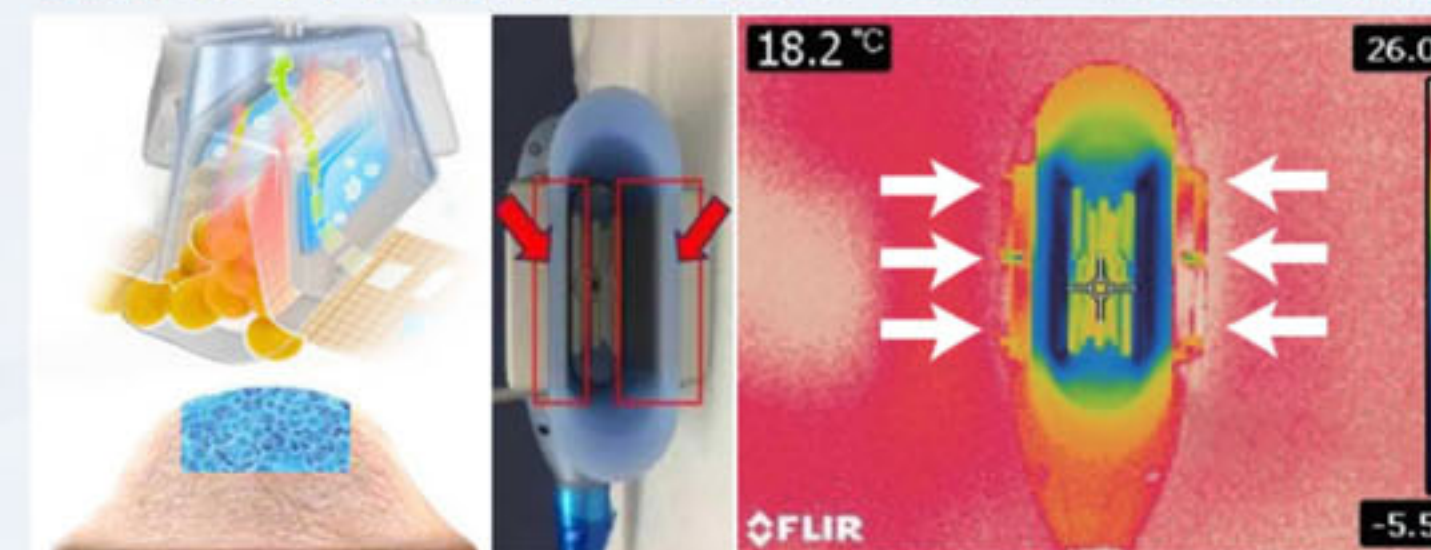

The 360° surround cooling technology can increase the efficiency by up to 18.1%, and the adsorbed area is frozen in a 360° omni-directional way without dead corners, resulting in more effective removal of fat cells.

360° ALL-AROUND COOLING:

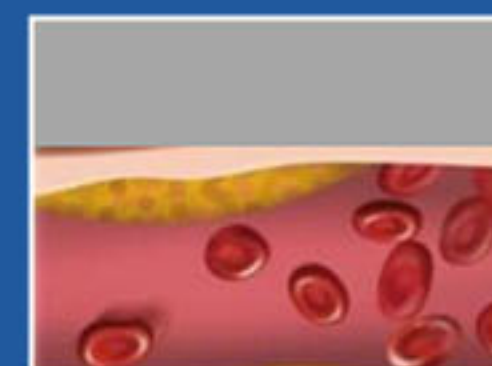

Cooling energy complete and uniformity.

TRADITIONAL TWO-SIDE COOLING VERSION:

Cooling energy focus on both sides.

COOLING PLATE WITHOUT NEGATIVE

Blood flow and body temperature tend to remain constant

COOLING AFTER ADSORPTION

Suction blocks blood flow, allowing low temperature to reach adipose tissue.

The clinical effect is better if blood circulation is blocked and fat freezing is accelerate.

360° around the cooling area

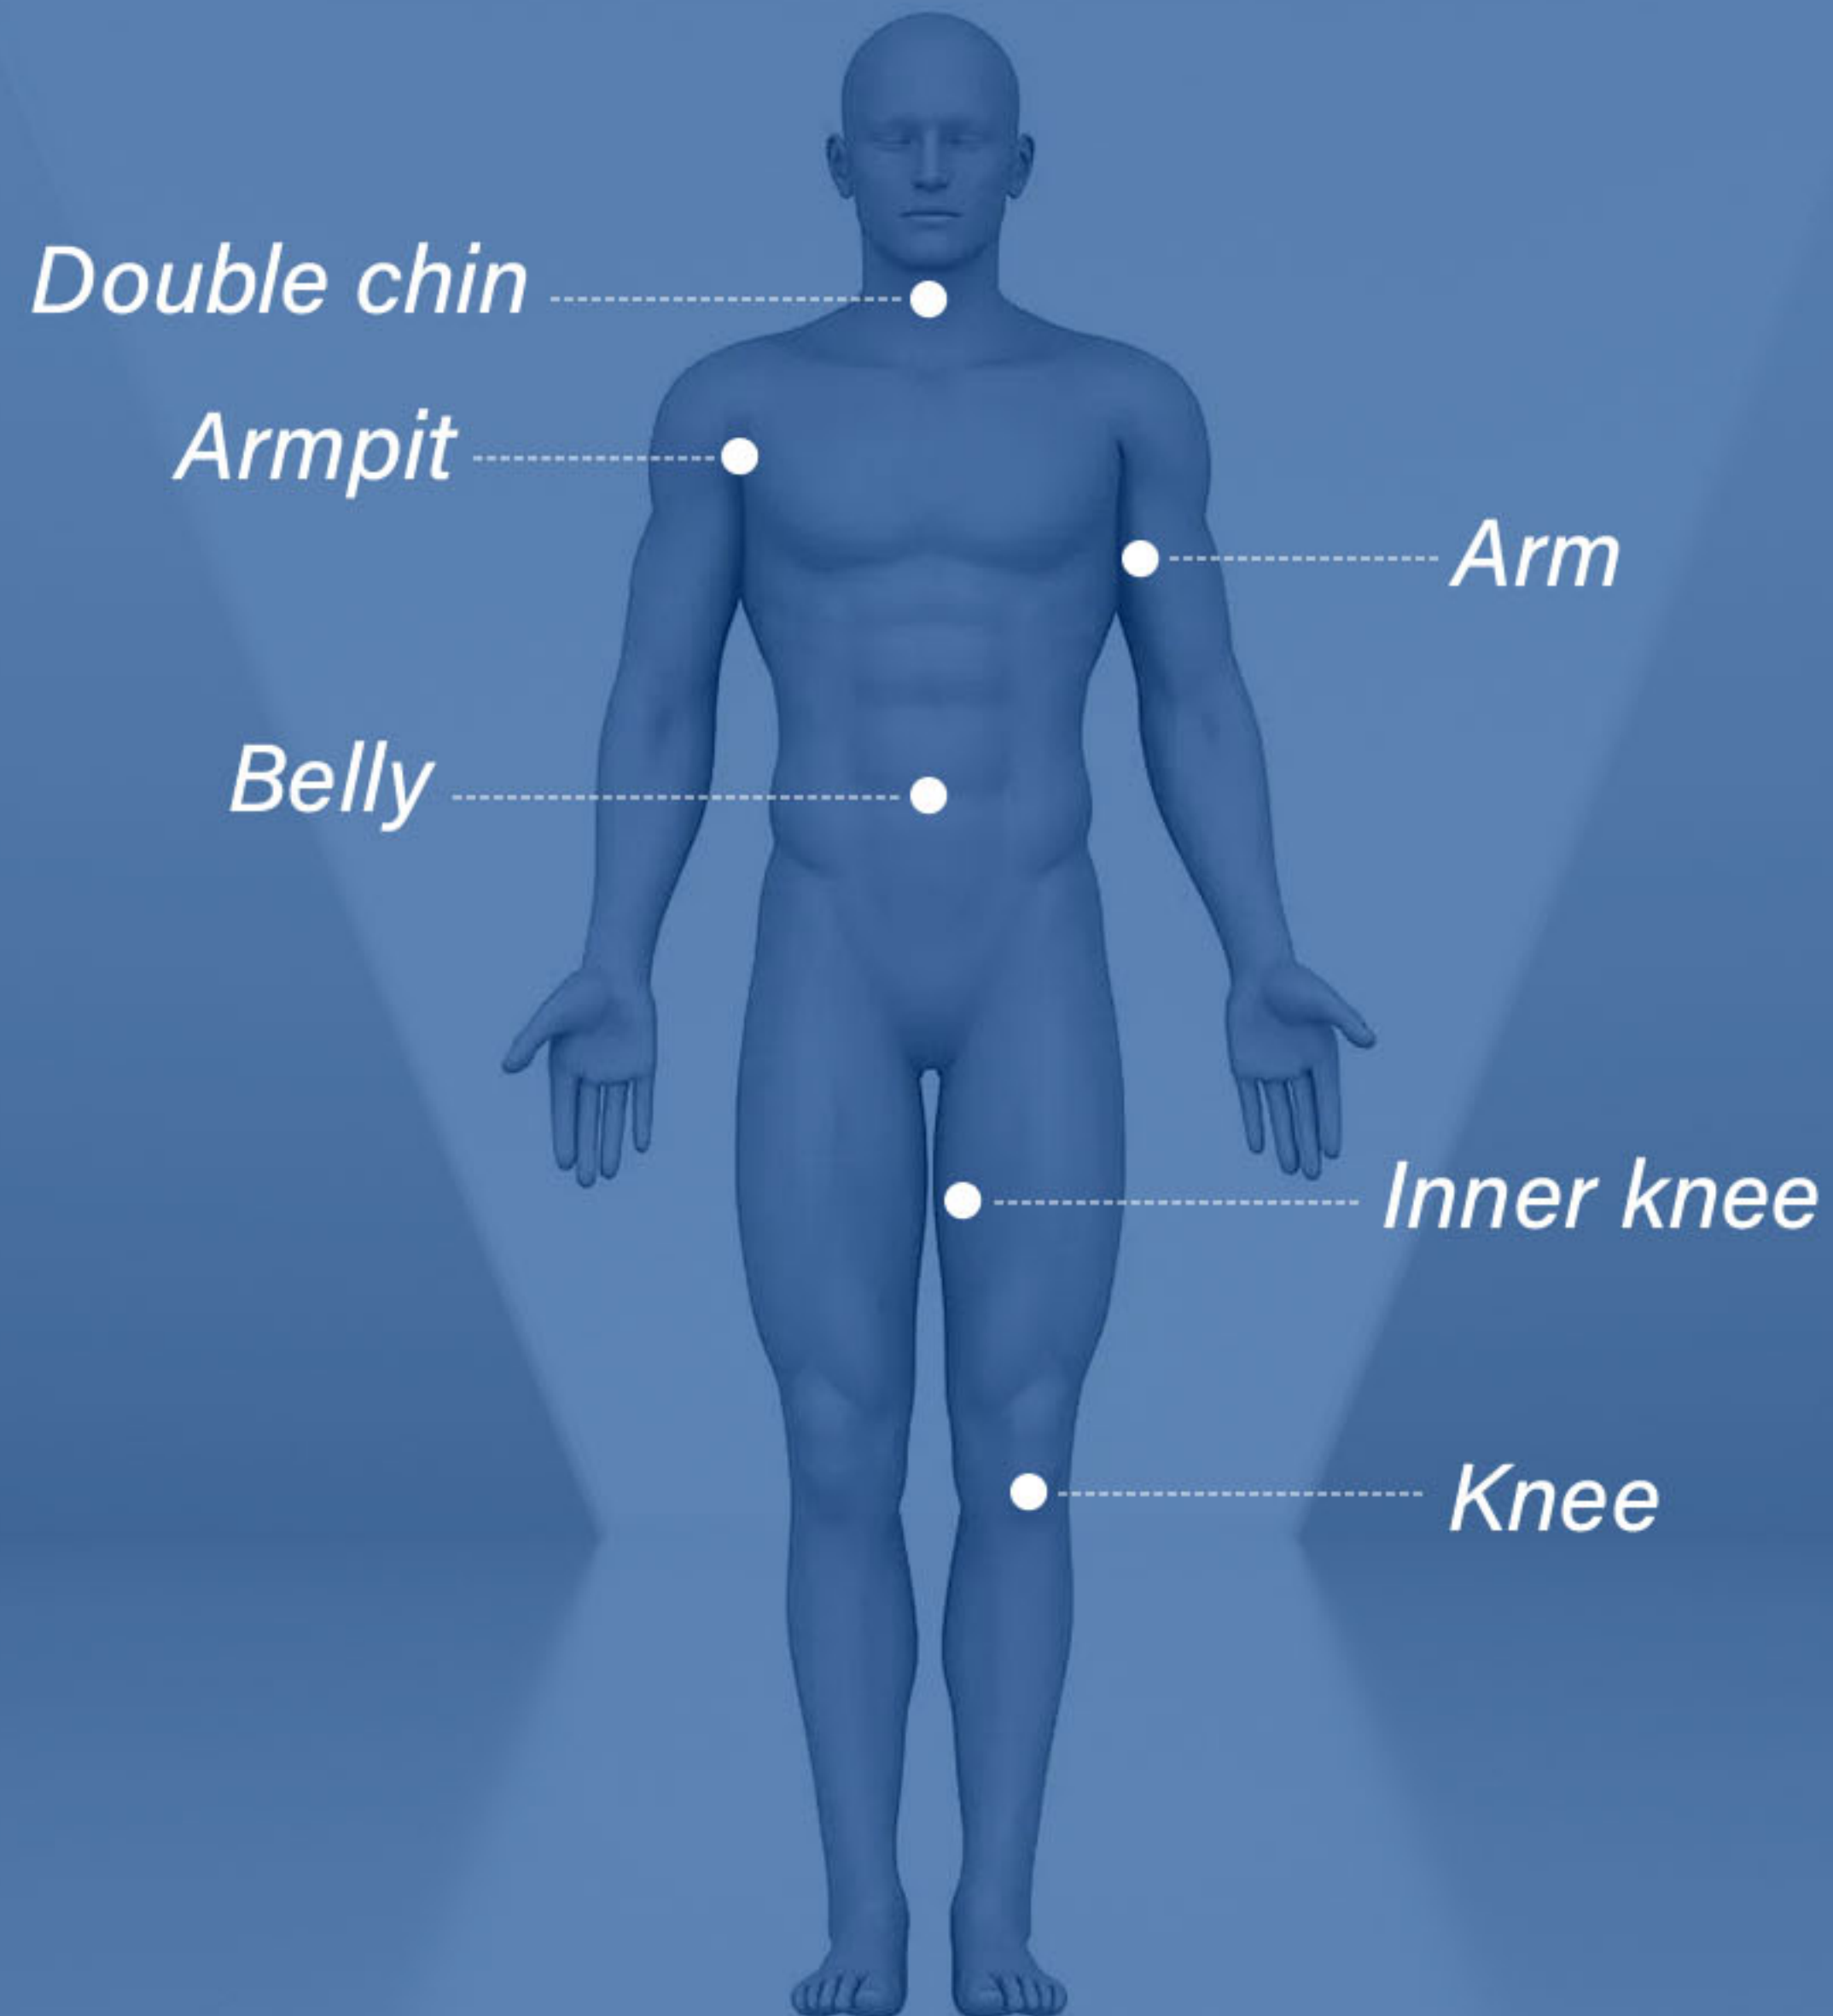

The general 360° cooling plate area in the market

Traditional cooling plate on both sides

15.6 INCH SMART SCREEN

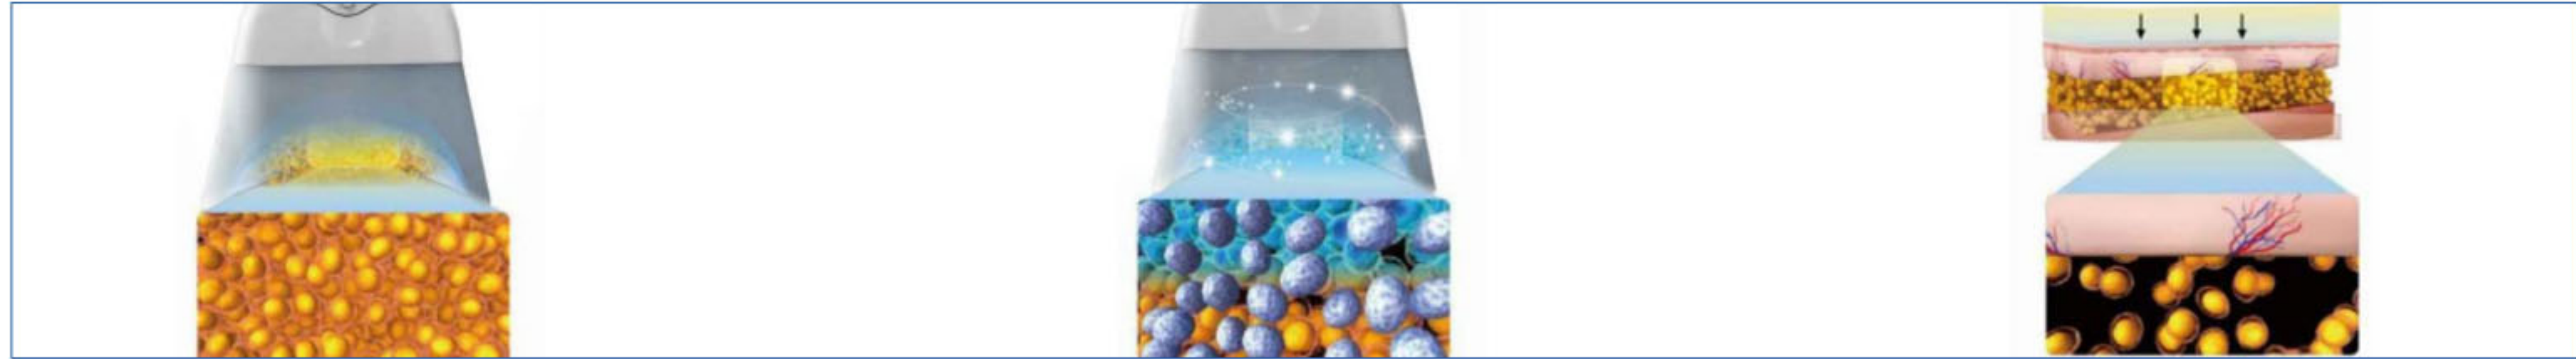

-  Convenient operation
-  Fast response time
-  Encrypted design for privacy

MACHINE PARAMETERS

Machine Name	Diamond Ice Body Slimming Machine
Display Screen	15.6 Inch Smart Screen
Cooling Temperature	-15-50℃
Vacuum Suction	1-5 Gears (10-50Kpa)
Setting time	1-99min (Default 60min)
Output Power	1000W
Input voltage	110V/220V
Handle	4 Handles (6 Heads)

WORKING PRINCIPLE

The treatment head is attached

The cooling energy treats the target fat layer without damaging

Damaged fat cells are broken down and cleared through the natural body process (apoptosis)

Swelling of abdominal fat

Convey cooling

fat cells are destroyed

decreased number of fat cells in the abdomen
